■ This water sample DOES NOT contain total coliform or E.coli bacteria. THE WATER COULD CONTAIN OTHER CONTAMINANTS. For guidance on water testing, please visit www.healthvermont.gov/water. Be sure to have your water tested at least once a year, since the number of bacteria in your water can change due to groundwater contamination, poor water system maintenance, flooding, or other problems. This sample utilized the VDH Drinking Water Drop-Off Program and was delivered to VDH Laboratory by Priority Express.

Units of Measurement and Definitions:

N/A = Not Available; mL = milliliter; ">" = greater than; "<" = less than; MPN = Most Probable Number; CFU = Colony Forming Unit; TNTC = Too Numerous To Count
These results are for a grab sample; collected at one location and at one point in time unless otherwise noted.

Unless otherwise noted all analyses performed under NELAP certification have complied with all the requirements for the TNI standard.

Test results relate only to the samples tested and are representative of the samples as they were received at the laboratory.

This is a public record. Information contained in this report may be used for statistical purposes and may be released upon request, pursuant to Vermont Access to Public Documents law (1 V.S.A. 315-320).
